BUSINESS ANALYSIS | DIGITAL MARKETING | CRM | ECOMMERCE

PROFESSIONAL SUMMARY

Business analyst and former digital marketing and ecommerce professional with 10+ years of experience across retail technology, customer experience, digital commerce, and marketing operations. Brings approximately five years of hands-on experience executing email, social media, website, CRM, loyalty, and ecommerce initiatives, followed by five years leading requirements discovery, cross-functional programs, partner implementations, and enterprise modernization efforts. Proven results include improving email open rates by 30%, increasing website traffic through social campaigns, managing large ecommerce catalogs, and delivering branded digital experiences with retail partners.

SELECTED MARKETING IMPACT

- Implemented Oracle Responsys for a 1.5-million-member email audience and increased email open rates by 30% through audience segmentation, automated customer journeys, campaign optimization, and performance analysis.
- Co-managed Facebook and Instagram campaigns that increased website traffic by 17%, including monthly content calendars, paid campaigns, original and sourced content, and performance reporting.
- Managed ecommerce content and promotional experiences across BigCommerce and Salesforce Commerce Cloud, including homepage updates, landing pages, online promotions, navigation, SEO, store information, and BOPIS implementation.
- Redesigned a customer loyalty program and launched an AutoShip subscription service to support customer retention and recurring revenue.
- Partnered with brands and retailers to implement lease-to-own and financing experiences through branded websites and custom microsites aligned with partner requirements and brand guidelines.

PROFESSIONAL EXPERIENCE

CITY Furniture | Tamarac, FL

Sr. Business Analyst, Enterprise OMS Modernization

October 2025 - July 2026

- Gathered and documented future-state requirements for customer-facing and CRM-related workflows, including customer claims submission, invoice-detail lookup, returns and exchanges, and delivery routing and stop-posting processes.
- Facilitated discovery sessions with Customer Care, Commercial Sales, Operations, Accounting, and technology teams, translating business needs into documented requirements with traceability to approved source materials.
- Led a cross-functional review of more than 230 legacy reports, helping stakeholders determine which reports should be retained, retired, redesigned, or replaced in the future-state environment.
- Supported cross-functional coordination by tracking project updates, documenting risks and dependencies, and assisting with status reporting to ensure alignment across multiple workstreams.
- Produced workshop materials, process flows, presentations, agendas, and alignment documents supporting an enterprise-wide OMS modernization program spanning 25 workstreams.

FlexShopper Inc. | Boca Raton, FL

Project Manager, Merchandising

March 2025 - August 2025

- Partnered with brands and retail companies to design and implement lease-to-own and financing experiences on partner websites and custom microsites.
- Coordinated business, technical, product-data, promotional, and branding requirements to ensure digital experiences followed partner specifications and brand guidelines.
- Led the launch of category-specific microsites with integrated financing functionality, expanding the company's ability to support new retail partnerships and revenue opportunities.
- Managed the end-to-end lifecycle of the Logicbroker dropship platform, including enhancement planning, vendor onboarding, product-data requirements, order workflows, invoicing, and issue resolution.
- Presented platform roadmaps, recent enhancements, performance updates, and proposed improvements to the CEO on a monthly basis.
- Designed workflows for the company's first Catalog-as-a-Service revenue-sharing program and coordinated requirements across Product, Sales, Legal, Marketing, Merchandising, and Operations.

Business Systems Analyst / PMO Analyst**November 2023 - March 2025**

- Onboarded more than 35 vendors by redesigning catalog, product, order, and invoice workflows, reducing average onboarding time from six weeks to two weeks.
- Gathered and translated requirements across Marketing, Merchandising, Accounting, Operations, Product, and Technology into business requirements, functional specifications, workflows, and more than 100 Jira user stories.
- Coordinated go-live planning, user acceptance testing, issue resolution, stakeholder communications, and post-launch support for digital marketplace, financing, billing, and order-management initiatives.
- Managed competing stakeholder priorities through process mapping, structured workshops, and weighted decision-making exercises.
- Collaborated with development, quality assurance, product, and business teams to evaluate and deliver enhancements across the company's digital marketplace and lease-management systems.

Pet Supermarket Inc. | Sunrise, FL**2013 - 2023****Progressive roles: Junior Business Analyst (2021-2023) | Web Catalog Specialist (2018-2021) | Digital Marketing Specialist (2015-2018) | Ecommerce Specialist (2015) | Sales Associate (2013-2015)**

- Implemented Oracle Responsys for a 1.5-million-member email audience and improved open rates by 30% through audience segmentation, automated customer journeys, campaign testing, copy development, and performance analysis.
- Developed monthly Facebook and Instagram content calendars, created and sourced content, managed paid campaigns, and reported on performance, contributing to a 17% increase in website traffic.
- Supported promotional campaigns and store events through coordinated website updates, email campaigns, social media content, product setup, and campaign landing pages.
- Managed ecommerce content across BigCommerce and Salesforce Commerce Cloud, including homepage updates, promotions, landing pages, navigation, SEO, store information, and a catalog of more than 14,000 products.
- Supported the redesign of the customer loyalty program and launched the AutoShip subscription service to support retention, recurring purchases, and customer engagement.
- Implemented the company's first product information management platform and established processes supporting approximately 150 new products per week and more than 200 vendor relationships.
- Served as Product Owner for the Syndigo Riversand PIM, coordinating requirements, backlog refinement, testing, and integration requirements with Salesforce Commerce Cloud.
- Supported the implementation of buy online, pick up in store, and other ecommerce improvements designed to expand customer purchasing and fulfillment options.
